The Glorious, Tall May-

Of all the spring flowers, Tulips are the most popular. The bulbs require no attention whatever after they are planted, and the blooms are unequalled for richness of color and magnificence by other plants in their class. Whether they are placed in formal beds or used here and there in the shrub border, Tulips are certain to produce an excellent display in the early spring months when flowers are so scarce. If a number of different varieties are planted, the blooming season can be extended over a period of three to four weeks. Plant the bulbs 5 to 6 inches apart and cover them with 3 to 4 inches of soil. For house culture, 4 to 6 bulbs can be placed in a 6-inch pot. Keep them in a cool, dark place until the roots are well established, then bring them into the light. Letters A, B, C, and D indicate the relative blooming periods; A is followed by B, etc. Height is given in inches to aid in arranging flower beds.

Giant Darwin Tulips MAY-FLOWERING

More vigorous than other types of Tulips; the blooms are unusually large and borne on strong stems 2 to 3 feet high. Darwins bloom about three weeks after the early Tulips and are unsurpassed for growing in clumps among shrubs and for border use.

Exhibition Hyacinths.

Hyacinths

The outdoor cultivation of Hyacinths is quite similar to that of Tulips, except that the bulbs should be set further apart—about 8 to 10 inches. For house culture, pot the bulbs any time from September to December, using a light, rich soil and bone fertilizer. Place the pots outdoors and cover them with 4 to 6 inches of leaves. After 10 to 12 weeks they may be brought indoors a few at a time.

If Hyacinths are grown in glasses the bases of the bulbs should barely touch the water. The glasses should be set in a cool, dark place until they are full of roots.

CADWELL & JONES EXHIBITION HYACINTH BULBS

Principally used for forcing; trusses and blooms very large if given proper attention.

15c each; \$1.60 per doz.; \$12.00 per 100.

- GIGANTEA.** Light pink blooms set very closely on a large spike.
LA GRANDESSE. Splendid pure white bells are borne in a perfect truss.
LA VICTOIRE. Deep crimson-red with a large, full spike.
MARIE. Dark blue; contrasts very delightfully with the white or light varieties.
MORENO. Bright rose blooms; very heavy truss.
SCHOTEL. Light blue; truss long and perfectly formed. Good for forcing and bedding.
YELLOW HAMMER. Pure bright yellow.

Selected Named Hyacinths

Cadwell & Jones Selected Named Hyacinths

These bulbs are not as large as "Exhibition Size," but they will be found eminently satisfactory for forcing and bedding.

12c each; \$1.25 per doz.; \$8.00 per 100.

ARENTE ARENSEN. Snowy white; open bells and a broad, compact spike. Extra fine.

GERTRUDE. The dark pink bells are quite compact on strong stems. Good forcer.

GRAND MAITRE. Deep sky-blue bells. Easy to force and good for bedding.

KING OF THE BLUES. Bright, dark blue flowers are borne upon a strong spike.

LADY DERBY. Has a splendid truss of rose-pink blooms. Strong stem.

LA VICTOIRE. The spike is long and compactly filled with medium sized carmine-rose bells.

L'INNOCENCE. Large bells, pure white, are borne on a strong truss. Excellent bedder or forcer.

QUEEN OF THE BLUES. Light porcelain blue bells; medium size; large, compact spike.

SCHOTEL. Light blue; truss long and perfectly formed. Good for forcing and bedding.

YELLOW HAMMER. Creamy yellow bells and a fine spike; the best yellow for forcing.

PURE WHITE VARIETIES.

LIGHT BLUE VARIETIES.

RED SHADES.

MIXTURE OF DARK BLUE VARIETIES.

Early French Roman Hyacinths

These beautiful Hyacinths are indispensable to the amateur; they are among the most easily cultivated and most satisfactory of flowering bulbs. If planted early in September and gently forced, they will bloom in November. When grown in pots or pans they are most effective planted in groups of six or more bulbs in each. Popular for earliness and profusion of graceful spikes covered with slender bells. Grown easily in bowls with peat moss and water.

	Each	Doz.	100
PURE WHITE	\$0.15	\$1.60	\$12.00
BLUE10	1.00	8.00
PINK10	1.00	8.00

FINE GROUND KNUCKLE BONE—ODORLESS. Use liberally when planting bulbs. Can be applied with perfect safety at any time on all plants. 5 lbs., 60c; 25 lbs., \$1.80; 50 lbs., \$2.75; 100 lbs., \$4.85.

BEAUTIFUL PEARL CHIPS

Lb., 10c; 3 lbs., 25c.

Polished and glistening, free from dirt. Prepared especially for bulb culture in fancy dish. Exceedingly attractive in glass bowls and in strong demand for goldfish globes and aquaria.

Cadwell & Jones' Charming Formal Bulb Garden which won First Prize, Blue Ribbon and \$500 Cash at the National Flower Show.

Narcissi or Daffodils

American Grown

We have been successful in securing bulbs grown under highly favorable conditions. The brilliant blooms of the Narcissi appear from March until well into May. The early blooming period and their handsome appearance, whether in large masses or as individual flowers, make them, perhaps, the most popular spring flowering bulbs. Plant the bulbs from 4 to 6 inches apart, depending upon the variety, and cover them to one and one-half times their depth. Bonemeal makes an ideal fertilizer; fresh stable manure should never be used.

Single Large Trumpet Daffodils

EMPEROR. Rich yellow trumpet, perianth deep primrose-yellow. One of the largest flowered varieties and is an excellent sort for borders or forcing. Mother bulbs, 10c each; \$1.00 per doz.; \$7.50 per 100.

SPRING GLORY. Perianth creamy white, trumpet yellow. Mother bulbs, 12c each; \$1.15 per doz.; \$8.00 per 100.

Giant
Trumpet
King Alfred.

KING ALFRED. "The King of Daffodils." The finest of the giant golden yellows. Flowers of extra size and great substance. Golden yellow perianth, trumpet of beautiful form with deeply frilled mouth. Large, bold flower and strong grower. 15c each; \$1.50 per doz.; \$11.00 per 100.

Single Short Trumpet Daffodils

BARRI CONSPICUUS. Broad perianth colored soft yellow; cup is orange-scarlet. 8c each; 75c per doz.; \$5.00 per 100.

SIR WATKIN. Perianth is primrose, cup is deep yellow. One of the largest trumpet Daffodils. 10c each; \$1.00 per doz.; \$7.00 per 100.

WILL SCARLETT. White perianth, wide open cup, fiery orange-red. 10c each; 85c per doz.; \$6.50 per 100.

Single White Poet's Narcissi

POETICUS ORNATUS. Perianth is pure white and the button-like cup is margined with bright crimson. 8c each; 75c per doz.; \$5.50 per 100.

ADCO

(Registered Trade-Mark)

Adco is a powder which, when mixed with almost any non-woody vegetable waste and kept moist, gradually converts the mass into real manure fully equal to the farmyard product in fertilizing power but free from foul odor, flies, weed seeds, etc. The process is perfectly simple and not at all laborious.

Adco, in 150-lb. bags (enough for a heap 10x10x6 ft., making about 3 tons of manure), \$10.50.

Adco, in 25-lb. bags (enough for 12 wheelbarrow loads of garden waste, making ½ ton of manure), \$2.00.

TEROGEN

Summer-Autumn Ground Dressing and Soil Disinfectant.

Terogen destroys the spores of fungi of most diseases that have fallen to the ground, as well as the larvae of most insects, including the rose pith borers, rose bugs, aphids and most beetles. Terogen also acts as a valuable fertilizer.

Narcissus Offer

Daffodils planted in clusters in the foreground of shrubbery, through woodlands or along lawns give a most pleasing effect and will increase in beauty and number without special care and become permanently established. Now everyone can enjoy these at reasonable prices. See our offerings, pages 7 and 8.

Capital City Lawn Grass Seed

To Prepare a Good Lawn you must have seed of the proper kind and use plenty of it; you cannot produce a fine and beautiful lawn with ordinary hay seed.

When to Sow. During the cool temperature of early fall when the soil is warm, and usually moist, seed can germinate quickly and make deep roots, which are far less likely to be killed by winter frosts than the shallow roots of spring sown grass being killed by the extreme heat of summer. Weeds which are dormant in every soil, spring up quickly, but the majority of them being annuals only, will be killed by the first severe frosts. One pound of our mixture will sow 200 square feet, 150 pounds to the acre. Lb., 50c; 2 lbs., 95c; 3 lbs., \$1.35; 5 lbs., \$2.00; 10 lbs., \$3.85; 15 lbs., \$5.40; 25 lbs., \$9.00.

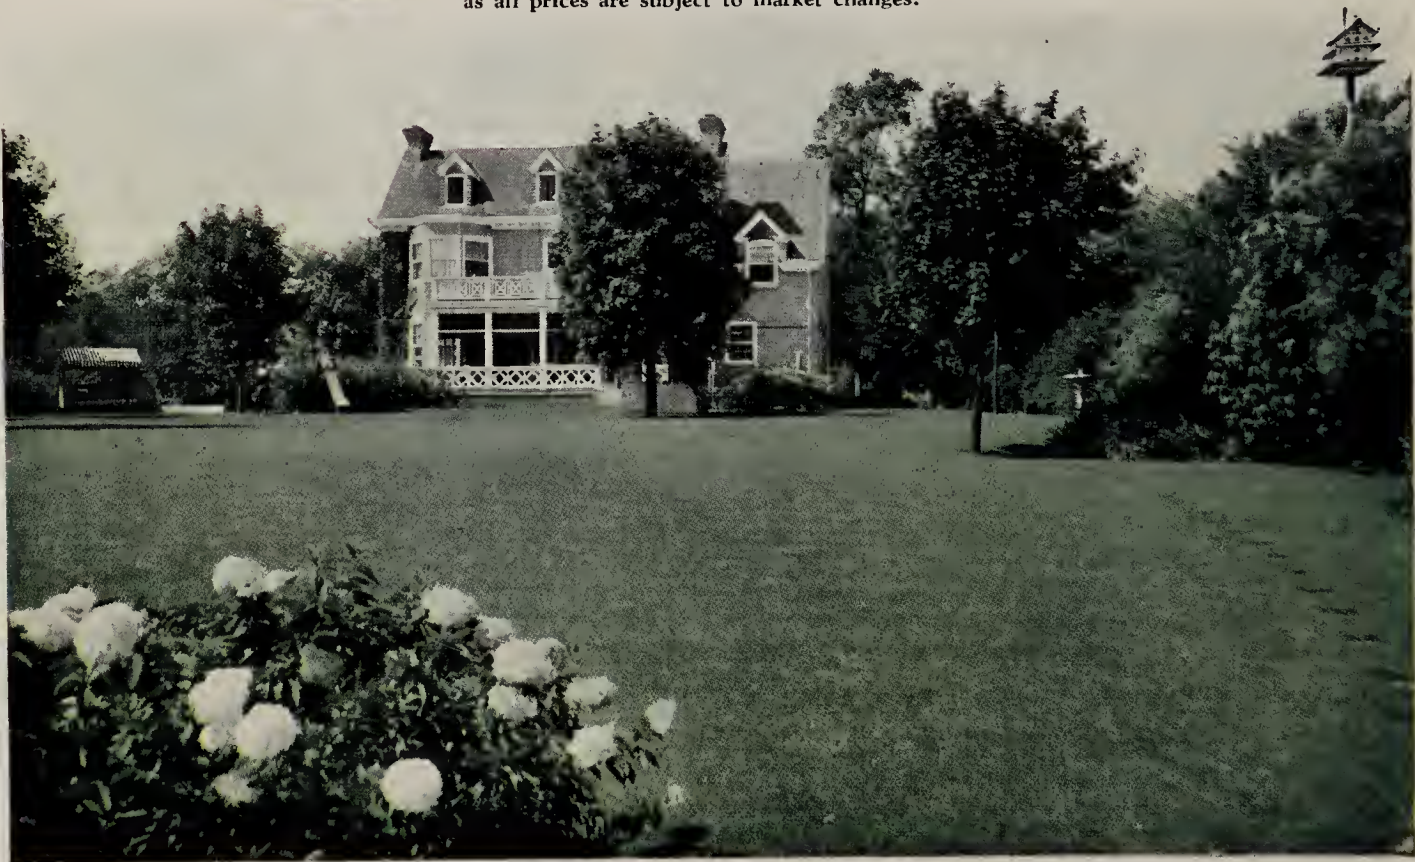

Shady Nook Lawn Grass Seed

Lb., 60c; 2 lbs., \$1.00; 3 lbs., \$1.45; 5 lbs., \$2.25; 10 lbs., \$4.25; 15 lbs., \$6.00; 25 lbs., \$10.00.
